

**TRAINING COOPERATION AGREEMENT WAS SIGNED BETWEEN
UNIVERSITY OF TURKISH AERONAUTICAL AND THK TECHNIC
INCORPORATION ON 02.01.2018.**

University of Turkish Aeronautical Association was established in order to educate the qualified labor force needed in aviation sector in accordance with the aim that Atatürk showed in his motto: “the future is in the skies.” Our university is the first and only specialization university in the field of aeronautics and space.

In line with this goal, we educate qualified labor force needed in national projects which were carried out by our country's defense industry, and in every aspect of rising civil air transport by academic and practical trainings. Practical training is provided in our newly created workshops and laboratories.

In addition, in order to enhance the students’ knowledge and skills of the University of Turkish Aeronautical Association of Ankara Aeronautical Vocational School of Motor Vehicles and Transportation Technologies Department of Aircraft Technology Program, a training contract was signed with THK Technic Aircraft Maintenance Services Inc. on 02.01.2018

Within the scope of training contract; it was decided that “the technical facilities of the THK technical aircraft maintenance hangars will be provided to train the students and the trainers will be assigned for the planned practical trainings by THK Teknik, the leading institution in the sector.”
